

NEW PRODUCTS 2018

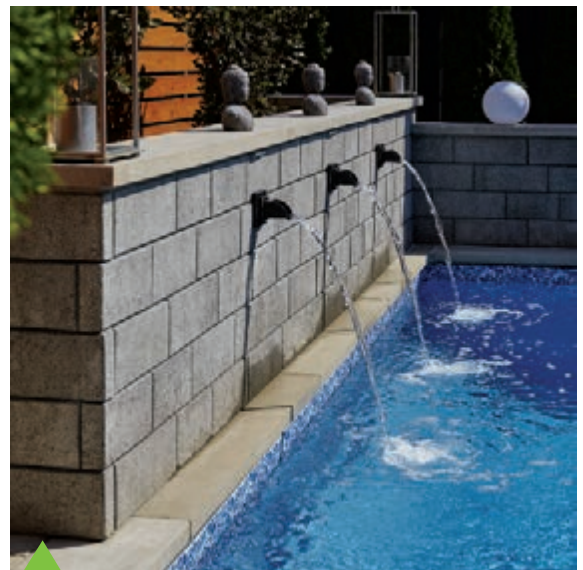

From sleek, modern pavers, emission-free maintenance equipment, and powerful, yet efficient machines, to innovative growing solutions and substrates, the 2018 *Landscape Trades* new product round-up has something to pique the interest of every person in the diverse green professions. Whether it's simply time to upgrade your tools or fleet, or you're ready to take the next steps to grow your business, this special section is sure to spark your imagination and help you find the best solutions to fit your needs.

Compact wheel loaders

Built for construction contractors, landscapers and rental centre operators, the new John Deere 204L and 304L compact wheel loaders deliver higher productivity, increased uptime and lower daily operating costs. The L-series models are built for tasks that require peak productivity in small spaces and over rough terrain.

Paver

The new Decaston line from Oaks Landscape Products are large format pavers with a smooth surface, clean edges and reduced joint spacing. At 80-millimetres (3.15-inches) thick, this paver is manufactured with ColorBold, EliteFinish and CarbonCure technologies, and is suitable for light traffic, pedestrian use and meets wheelchair access specifications.

Oaks Landscape Products

www.oakspavers.com

Zero-turn mower

The 2018 Lazer Z Diesel from Exmark is available with a new 96-inch UltraCut Flex Wing cutting deck and RED Technology-equipped Yanmar liquid-cooled diesel engines. The new machine is designed to reduce operator exposure to bumps and vibrations with its motion control system and isolation mounts under the seat base and footrest. The Lazer Z is also available with 60- or 72-inch cutting decks.

Exmark

www.exmark.com

Debris loader

Harper Turf Equipment launched the ML32 MultiLoader at Landscape Ontario Congress 2018. This new truck loader features a belt-driven impeller and coned inlet to maximize debris reduction and cut clean up time. The ML32 contains four, 20-inch serrated impeller blades providing 7300-CFMs for extreme shredding and decreased particle size.

Modern slab paver

The new Avari 50-millimetre slab combines a large modern finish with a refined surface. Produced with Best Way Stone's DesignLoc surface refinement technology, the Avari slab provides a highly-detailed, richly-coloured smooth-touch surface. The Avari is also coated with the Best Way Stone ChromaTec protective surface enhancer to add an additional vibrancy to the colours and help resist potential stains from foreign elements.

Best Way Stone

www.bestwaystone.com

Compact aerator

The new Exmark 24-inch Stand-On Aerator features a compact design that significantly increases the productivity and efficiency of lawn care professionals aerating smaller properties. Designed to easily fit through 36-inch gates, the machine features an efficient hydro drive system with infinite speed control up to 6.8 m.p.h.

Exmark

www.exmark.com

Roll-out bucket

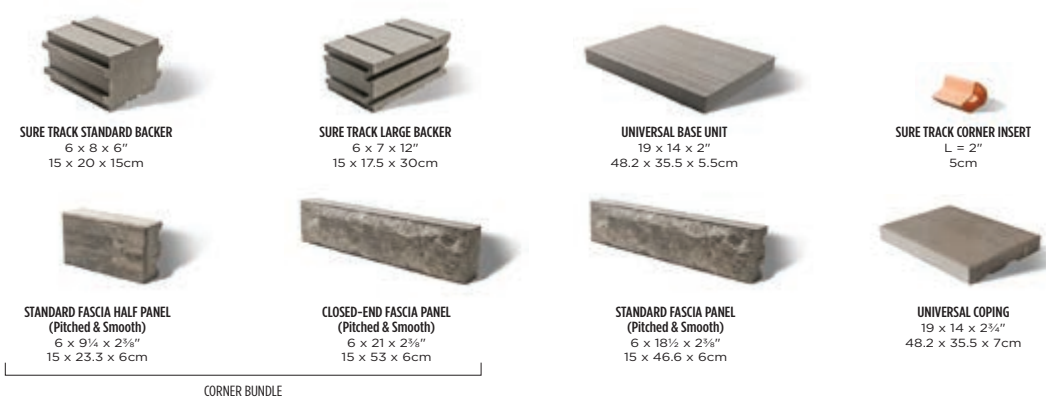

John Deere continues to grow its lineup of Worksite Pro Attachments with the introduction of new roll-out bucket offerings. The RB72, RB84 and RB96 models are designed to best match the attachment to the machine. Optimized for G-Series Compact Track Loaders and K-Series Compact Wheel Loaders (RB84 and RB96 only), these buckets provide an additional 34-inches of dump reach when fully extended.

Lightweight chainsaw

Echo's new CS2511T top handle chainsaw is the lightest in North America (5.2 pounds) and 20 per cent smaller than the competition, according to the manufacturer. The clutch-driven oiler system comes equipped with a top-mounted adjuster. This design innovation not only avoids the clogging of dirt and debris but allows for precise oil flow depending on the job.

Suspended platform mower

Exmark now offers a suspended platform-equipped version of its Radius S- Series zero-turn riding mower. The suspended platform uses three coil-over dampers to isolate the cast aluminum operator platform from the mower chassis atop three inches of vertical travel. Available with a choice of 48-, 52- or 60-inch UltraCut Series cutting decks, or a 60-inch UltraCut Rear Discharge cutting deck, the machines are powered by an air-cooled 708-cc Exmark twin-cylinder engine with a heavy-duty canister air filtration system.

Inverter generator

Caterpillar recently introduced a portable inverter generator. Caterpillar engineers designed the Cat INV2000 with usability features, like an easy start switch, along with professional performance and safety features making it a versatile generator for contractors. Caterpillar will also offer a parallel kit, enabling users to connect two INV2000 units together to double power output.

Expanded paver colour

Unilock has added another colour to its Richcliff product line: Smoke Shale. Manufactured with EnduraColor Plus, Unilock's exclusive enhanced colour process, Richcliff provides a colourfast and wear-proof finish. The paver line also features a realistic embossed surface that is cast from hundreds of natural stone surface textures to ensure a random natural appearance.
